RE: Resource Recovery Certification, RR0180  
Classification - U

Dear Mr. Buha:

This letter is to inform you that the Missouri Department of Natural Resources' (MDNR) Hazardous Waste Program has completed a review of your application for resource recovery. After a review of the application and supporting documents, the department hereby certifies The Norman Corporation to distill spent solvents in accordance with the following conditions:

1. The operator shall comply with 10 CSR 25-9.020 and all plans and processes described in the certified resource recovery application.
2. The operator shall distill only those wastes described in the application and in the amounts specified.
3. The owner/operator must comply with all applicable requirements of Land Ban Regulations.
4. All still bottoms and sludge shall be disposed of at an authorized hazardous waste management facility.
5. The owner/operator shall contact the City of St. Louis, Division of Air Pollution Control, at (314) 664-7877, to verify compliance with all federal and state regulations concerning air emissions.
